Leanne,

I've attached some things from PFAA Days II & III that may help reestablish the history.

The first PFAA Days meeting was probably in 2006 but I don't have any documents from this event. I don't think we anticipated that it would be a recurring event at that time.

Maybe Chris Lau has something more he can send you.

Thank you,

Andy

**Subject:** Question about the Series of PFAA Workshops that You Hosted Earlier in the 2000s

Hi, Andy and Mark,

I am trying to reconstruct a bit of history to respond to a PFAS Q & A about why and when we added PFAS as a target chemical to our fish tissue studies. John Wathen, who was my Assistant Branch Chief at the time, attended the second and third PFAA workshops. As far as we can figure out from materials that he saved from those workshops, there were a series of 3 of these workshops and we know that the third workshop was held in 2010. Can you let me know what years the first two workshops were held and what I should use as the official name of these workshops (the 2010 program that John still has said "2010 PFAA Days III")?

I am trying to get my Q & A responses back to my Branch Chief (Shari Barash) by the end of today. It would be really helpful if you could send me the workshop dates and confirm workshop title this afternoon. Thanks--

Leanne Stahl
